A twelve foot (12') wide area will be cleared on each street. Every effort will be made to push the snow to a location which provides the least amount of obstruction to parked vehicles (normally the medians and open grassy areas). The contractor will attempt to clear snow from the areas in front of fire hydrants and mailboxes. A reasonable standard of care will be exercised not to damage the streets or curbing.

In the event of freezing rain or icy conditions, the streets will be sanded. Salt is not used on CountrySide roads.

The only pathways that are cleared of snow are along Algonkian Parkway, near the school, and along Countryside Boulevard leading from Algonkian Parkway to the shopping center.
